SUMMARY

Computer Science graduate with experience engineering full-stack applications, desktop software, developer tools, and AI-powered products. Passionate about architecting reliable, scalable software, distributed systems, and exploring emerging technologies. Currently developing Lexum, a declarative systems programming framework for deterministic orchestration.

SKILLS

Languages	Java, Python, Kotlin, Javascript, TypeScript, SQL
Systems & Tools	Docker, Postman, CLI tooling, REST APIs, Git, Netlify
Android	Android SDK, Kotlin, MVVM, Room, Dao, Retrofit, Coroutines
AI/ML	TensorFlow Lite, Scikit-learn, OpenCV

PROJECTS

LAWGIC2026 | lawgicchat.netlify.app

- Built an AI-powered legal assistant using Retrieval-Augmented Generation (RAG) for querying Indian legal documents (BNS).
- Leveraged LLMs and vector-based semantic search for context-aware responses, while optimizing backend performance in Python to ensure high accuracy and low latency.
- Tech stack:** Python, TypeScript

Project KARL2025 | karldocs.netlify.app

- Engineered an AI assistant integrating NLP pipelines and ML models for intent recognition, task automation, and query understanding
- Implemented robust task scheduling, calendar integration, and personalized recommendation logic
- Streamlined productivity workflows through intelligent automation and responsive query handling
- Tech stack:** Kotlin, MVVM, Room, Dao

Plastecure2024 | plastecure.netlify.app

- Secured **1st place** among 150+ teams by developing an IoT-based system for automated bottle recycling using ESP32 and Arduino
- Integrated TensorFlow Lite to enable efficient on-device waste classification
- Designed a real-time detection pipeline utilizing ultrasonic sensors and camera input
- Tech stack:** C, C++, Python, Arduino IDE

EDUCATION

2022 - 2026	Bachelor of Technology in CSE at Durgapur Institute of Advanced Technology & Management	
2020 - 2022	Intermediate Degree at Bhagwat Vidyapeeth, Chapra	(Marks: 75%)
2018 - 2020	Secondary Degree at Bhagwat Vidyapeeth, Chapra	(Marks: 86%)

AWARDS & CERTIFICATIONS

- IHMMC'25** - Certificate of Participation for presenting Raptor Smart Helmet projectApr 2025
- MediTech Expo'24** - Certificate of Excellence & Memento of Recognition for PlastecureNov 2024
